

Fart matters (Statute of limitations for women)

① Farting matters...

- 1) Farting only with air
- 2) Farting when you have diarrhea
- 3) Farting as a sign of pooping

(Note)

If you often say, "I'm going to fart now,"

those who say this in front of their friends...the fart is definitely coming from you, which is 1), and 2) and 3) certainly can't do that, as heavy drinkers, I think you all know.

② Statute of limitations for women...

A long time ago, I presented the statute of limitations in court,

and at the time, I said, "From a social perspective, I didn't think that far."

So I included it in this piece as a pun.
