

I'm exempt from the need to buy yakiniku sauce

I don't usually create or post anything exaggerated.

This is just a report on my everyday life, so what's this...?

By the way, I don't use any sauce, I just eat it with salt and pepper.

Some of you may say the same, but

in my case, I first choose

- ① Chicken breast
- ② Pork
- ③ Beef tongue

The above is my ranking of meat lovers.

This work is like a sequel to

[Gyoza is a luxury, a great snack to go with alcohol](#)
