

Infection without infection

No actual influenza infection, just formal influenza infection

I'm steady (in the sense of being consistent), but by no means serious.

I can't resist the overwhelming "sleepiness."

I believe that "all's well that ends well"...and he still does,
and I was the first to implement the upcoming

"discretionary work system"

as long as it didn't have any impact.

I've had a tendency to skip days off since I was a child. I probably skip 100 times as many days off as the average working adult.

(Note 1)

I don't particularly have a problem with "if..."

(Note 2)

Today's street event...

I'm here, making people say, "You'll see."
